

P&K PARK
LLP

ABOUT US

At P&K Park, we manage high stakes litigation for our international and domestic clients nationwide. We serve as national and regional counsel to major global companies and other leading businesses. Our focus on efficient and targeted advocacy enables us to not only meet but exceed our clients' business goals. We assist our corporate clients with their product liability including regulatory compliance, product recall investigations, general liability, commercial, and other litigation needs.

We are particularly strong in handling all aspects of complex product liability cases from planning and strategy to resolution. While boutique in size, we have a comprehensive team that develops and executes defense strategies that reduce the risks of litigation, increase the likelihood of trial success if litigation occurs, and reduce costs. With our elite network of trial attorneys and litigation experts, we stand prepared to defend and try cases in the nation's most difficult venues.

ABOUT US

Trusted Legal Expertise

With over 100 years of combined experience, we have a track record of obtaining favorable results for our domestic and international clients. We have made law benefiting our clients and obtained defense verdicts in some of the nation's most challenging venues.

Based in New York City, we can cover everywhere

We can cover all jurisdictions in the US. We can also cover Canada, England, Western Europe, Latin America, and Australia. We are a globally proficient law firm. We offer support to international clients conducting business in the US and are ready to travel anywhere to fulfill our commitments.

EXPERTISE

Product Liability

We are at the forefront of modern product liability litigation. We serve as national and regional counsel in high exposure cases filed in state and federal courts to both international and domestic manufacturers and distributors of various products, such as:

- Automotive Components including tires, seat belts, airbags;
- Heavy Equipment including excavators, forklifts, loaders, tractors, concrete pumps;
- Lithium-Ion Battery Cells;
- Home Appliances including microwave ovens, refrigerators, air conditioners, dehumidifiers, water heaters, water filtration systems, bidets;
- Butane canisters and Portable Stoves;
- Helmets;
- Wire Ropes;
- Solar Panels;
- Cosmetics;
- Food products, and more.

Product Warranty Claims

We handle claims involving allegations that goods failed to perform as promised – from recreational goods, to heavy handling equipment, to residential products. We also assist our clients during the design-and-development phase, helping to mitigate and prevent future risk.

Toxic Tort

We help some of the world's largest chemical manufacturers investigate, litigate, and resolve individual and aggregated product liability, toxic tort, warranty, environmental and commercial disputes with customers, suppliers, regulatory agencies, and insurers. Our attorneys possess a firm understanding of the science that drives the defense of toxic tort cases. Our team serves as national counsel, coordinating counsel, and local counsel to major companies and insurers to manage all facets of chemical exposure litigation.

EXPERTISE

Pharmaceuticals & Medical Devices

We have extensive experience litigating pharmaceutical and medical device cases as both local trial counsel and national coordinating counsel. Our knowledge of the industry, combined with our broad capabilities allow us to handle any aspect of drug and medical device litigation, from early case assessment, through discovery and trial. We provide a cost-effective alternative to national brand-name firms in this area.

Insurance Coverage

We represent primary and excess insurers, reinsurers, third-party administrators, and other entities in matters including bad faith claims, casualty, specialty lines, and property insurance coverage. Our team works with clients to meet their business goals through efficient and targeted advocacy.

General Liability

We represent insurance companies, private businesses, and other entities in personal injury, property damage, premises liability, and economic loss litigation. We efficiently and aggressively protect our clients' interests in general liability litigation.

Employment Litigation

Our employment law practice combines our trial skills with knowledge of the employment law issues confronting today's employers. We work with clients to ensure continued compliance with state and federal laws to avoid costly legal action. Unfortunately, sometimes employment-related lawsuits are unavoidable. When employment litigation presents itself, we represent clients before federal and state courts and administrative agencies, as well as in arbitration and mediation.

EXPERTISE

Disability Access & ADA

While the Americans with Disabilities Act (ADA) serves a laudatory purpose, many attorneys and career claimants have made ADA accessibility claims a lucrative business often to the disadvantage of business owners and operators. The number of ADA Title III lawsuits has increased substantially over the past five years. The lawyers in P&K Park's Disability Access Practice Group have extensive experience helping their clients face the multiple challenges presented by Title III of the ADA and other disability access laws. Our practice group provides ADA Title III litigation defense and counseling services to clients in a variety of industries such as sports, fashion, retail, and consumer products.

Business and Commercial Practice

We handle contract and other commercial matters for the firm's clients in federal and state courts throughout the country. We identify business practices that may give rise to litigation and counsel clients on how to eliminate or minimize risks should they arise. Where necessary, we litigate our clients' business disputes on their behalf, but we aim to keep our clients out of the courtroom by helping them identify and proactively respond to potential issues, preventing lawsuits or regulatory actions.

EXPERTISE

Real Estate

We handle real estate closings and transactions for individuals and companies seeking to buy, lease or sell residential and commercial property. Our team works with clients to address all pertinent issues that arise to ensure a smooth transaction.

Subrogation

We represent insurance companies, manufacturers, and other businesses in a wide variety of national subrogation litigation. Prosecuting and defending lawsuits brought by insurance companies on behalf of their insureds requires niche sophistication. We develop and execute strategies that increase the likelihood of trial success and reduce costs.
